

VOCALLY

Automatic Voice Dialer

Vocally is a voice-activated dialer, that turns any landline telephone into a voice-activated telephone.

Dialing takes place by saying the name of the person whom you are calling. It can be used by lifting the telephone receiver or via speakerphone. Throughout the process, there is no need to enter numbers or touch any other button.

This elegant, easy to use device, the size of a small chocolate bar, can make a world of difference to your life.

Vocally's Main Features:

Two Optional Configurations:

Vocally Freedom

For repetitive re-dialing of 60 stored numbers

Vocally Infinity

For dialing 45 stored numbers and new numbers

- ★ Each stored number can be up to 35 digits long
- ★ Does not interfere with regular line & phone use
- ★ Works with any phone
- ★ Interactive voice menu
- ★ Stored names playback
- ★ A prefix digit and delay can be easily added or removed from all numbers (at once) to enable, and wait for, outside line access.
- ★ Vocally will speak back to you in the following optional languages: US English, UK English, German, French, Danish, Dutch, Flemish, Spanish -South America, Spanish – Europe.

Tens of thousands of units have been sold, a sure indicator of its great success in aiding the visually impaired, those with limited mobility, and the elderly. The simple plug and play device, sold at an affordable price, has become a sensation that simplifies life for people with different types of impairment, allowing them full communication without the need to press buttons, enter numbers, or hold a telephone receiver.

A little assist goes a long way!
